Équipement Médical

Medical equipment for health centres and hospitals

MedSup Canada is a local, supportive and responsible company.

All our efforts are currently being made to contribute to the fight against the Covid-19 coronavirus pandemic.

We offer a range of Class 1 personal protective equipment to health centres and hospitals. Our products are safe, efficient, available and affordable. This medical supply meets the highest health and efficiency standards approved by Health Canada.

In the face of the pandemic, our products are available primarily to Canadian health centres and hospitals. These products are intended for end-users and not for resale.

With a large inventory on Canadian soil and a dedicated logistic delivery team, we guarantee you a professional, fast service and the most accessible fare despite the current high demand.
